Homemade Playdough

WHAT YOU NEED:

1/4 cup salt
1/2 cup flour
1 tablespoons cream of tartar
1/2 cup water
1 teaspoon oil
A few drops of food colouring

WHAT TO DO:

1. Put all ingredients into a small saucepan over low heat.
2. Stir until a dough forms - this will take about a minute.
3. Once a dough forms, tip it out onto a plate and cool before playing.

TIPS

- * Cream of tartar can be found in the baking aisle at the supermarket.
- * If after cooking the dough feels too wet/slimy, add a tablespoon of flour at a time and knead it into the dough until you get the desired texture.
- * After playing, store the playdough in a ziplock bag or plastic box. It should last for several months.
